AUTHOR INDEX

Boyer, W.
Variables in Frothing Latex Compounds and Froth/Foam Agents for Acrylic and SBR Latices, p. 185

Cadmus, E.L.
The Biological Stability of Polymers, p. 33

Chancler, F. X.
Formulation and Application Considerations to Conserve Energy in Textile Coatings, p. 79

Cumming, H. J.
Relative Toxicity of Pyrolysis Products from Upholstery Fabrics With and Without Backcoating, p. 63
The Effect of Test Conditions on the Relative Toxicity of the Pyrolysis Products from Some Upholstery Fabrics, p. 133
Flash Fire Propensity of Some Upholstery Fabrics With and Without Backcoating, p. 240

Dennis, F. J.
Evaluation of Sodium Polyacrylate Thickeners in Styrene-Butadiene Latices, p. 85

DeVry, W.
Use of Acrylic and PVC Latex in Nonwoven Applications, p. 97

Fitzgerald, J. L.
Integral Latex Foam Carpet Cushioning, p. 107

Force, Carlton G.
Determination of Latex Particle Size from Polymerization Rates, p. 223

Grant, R. R.
Application of Coatings to Continuous Webs, p. 43

Gupta, B. S.
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Hilado, C. J.
Relative Toxicity of Pyrolysis Products from Upholstery Fabrics With and Without Backcoating, p. 63
The Effect of Test Conditions on the Relative Toxicity of the Pyrolysis Products from Some Upholstery Fabrics, p. 133
Flash Fire Propensity of Some Upholstery Fabrics With and Without Backcoating, p. 240
Ignitability of Some Upholstery Fabrics With and Without Backcoating, p. 263.

Larsen, M. C.
Polyurethane Latices, p. 121

Maxcy, W. J.
Polyurethane Latices, p. 121

Minami, H.
Strength of Coated Fabrics with Crack, p. 269

Mischutin, V.
Non-Toxic Flame Retardant for Textiles, p. 308

Moldovan, D. M.
Latex Compounding Additives and their Effects on Textile Application Properties, p. 191

Ignitability of Some Upholstery Fabrics With and Without Backcoating, p. 263

Pfeiffer, R.
Marketing Analysis of 100% Solids Polyurethanes, p. 326

Polfus, W. F.
Weathering of Industrial Fabrics (Accelerated and Natural), p. 58
Treatment of Outerwear for Rain Protection, p. 218

Ratney, R.
The Impact of OSHA Regulations on the Coated Fabric Industry, p. 319

Reagan, B. M.
The Effects of Selected Fungicides on the Flammability, Strength and Water Repellency of Cotton Tentage to Light, p. 357

Skiscim, R. J.
Determination of Free Formaldehyde on Emulsion Treated Substrates, p. 159

Walsh, W. K.
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Walter, F. B.
Thermoplastic Polyurethanes – A Versatile Material for Industrial Fabric Application, p. 293

Wardle, M. W.
High Performance Coated Fabrics of Kevlar Aramid Fiber, p. 3
Aramid Fibers for High Performance Coated Fabrics, p. 334

Waugh, S. D.
Specialized Applications for Coated Fabric, p. 24

Wilson, A.
Fire Resistance of Phosphazene Rubber Coated Fabrics, p. 233

SUBJECT INDEX

Acoustical Control
Specialized Applications for Coated Fabric, p. 2

Acrylic Latex
Determination of Free Formaldehyde on Emulsion Treated Substrates, p. 159

Acrylic Latex, Nonwoven
Use of Acrylic and PVC Latex in Nonwoven Applications, p. 97

Anti-Oxidants
Latex Compounding Additives and their Effects on Textile Application Properties, p. 191

Belting, Conveyor
Specialized Applications for Coated Fabric, p. 24

Biocides for Polymers
The Biological Stability of Polymers, p. 33

Biodegradeability
The Biological Stability of Polymers, p. 33

Carpet Cushioning
Integral Latex Foam Carpet Cushioning, p. 107

Clabberiness
Evaluation of Sodium Polyacrylate Thickeners in Styrene-Butadiene Latices, p. 85

Coated Fabrics
Fire Resistance of Phosphazene Rubber Coated Fabrics, p. 233
The Effects of Selected Fungicides on the Flammability, Strength and Water Repellency of Cotton Tentage Exposed to Light, p. 357

Coated Fabrics, Kevlar® Aramid Fibers
Aramid Fibers for High Performance Coated Fabrics, p. 334

Coating
Application of Coatings to Continuous Webs, p. 43

Coating Machinery
Application of Coatings to Continuous Webs, p. 43

Concrete Curing
Specialized Applications for Coated Fabric, p. 24

Copper 8-quinolinolate
The Effects of Selected Fungicides on the Flammability, Strength and Water Repellency of Cotton Tentage Exposed to Light, p. 357

Cotton
The Effect of Selected Fungicides on the Flammability, Strength and Water Repellency of Cotton Tentage Exposed to Light, p. 357

Crack Propagation in Coated Fabrics
High Performance Coated Fabrics of Kevlar® Aramid Fiber, p. 3

Detection Methods
Determination of Free Formaldehyde on Emulsion Treated Substrates, p. 159

Direct Coating
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Economics
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Energy Analysis
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Energy Considerations, Textile Coatings
Formulation and Application Considerations to Conserve Energy in Textile Coatings, p. 79

Fabric Coating with Solids
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Fabric Shellers
Fire Resistance of Phosphazene Rubber Coated Fabrics, p. 233

Fabrics, Coated
Specialized Applications for Coated Fabric, p. 24

Film Properties
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Flame Resistance of Coated Fabrics
High Performance Coated Fabrics of Kevlar® Aramid Fiber, p. 3

Flame Resistance Fabrics
Fire Resistance of Phosphazene Rubber Coated Fabrics, p. 233

Flammability
The Effects of Selected Fungicides on the Flammability, Strength and Water Repellency of Cotton Tentage Exposed to Light, p. 357

Flex Fatigue of Coated Fabrics
High Performance Coated Fabrics of Kevlar® Aramid Fiber, p. 3

Foamed Latex
Variables in Frothing Latex Compounds and Froth/Foam Agents for Acrylic and SBR Latices, p. 185

Formaldehyde
Determination of Free Formaldehyde on Emulsion Treated Substrates, p. 159

Fracture Toughness Value
Strength of Coated Fabrics with Crack, p. 269

Frothing Agents
Variables in Frothing Latex Compounds and Froth/Foam Agents for Acrylic and Latices, p. 185

Frothing Aids
Latex Compounding Additives and their Effects on Textile Application Properties, p. 191

Fumigation
Specialized Applications for Coated Fabric, p. 24

Fungal Growth
The Biological Stability of Polymers, p. 33

Fungicide
The Biological Stability of Polymers, p. 33
The Effects of Selected Fungicides on the Flammability, Strength and Water Repellency of Cotton Tentage Exposed to Light, p. 357

Heat Sources
Application of Coatings to Continuous Webs, p. 43

High Performance Coated Fabrics
Aramid Fibers for High Performance Coated Fabrics, p. 334

Industrial Fabrics, Weathering
Weathering of Industrial Fabrics (Accelerated and Natural), p. 58

Kevlar® Aramid Fibers
Aramid Fibers for High Performance Coated Fabrics, p. 334

Kevlar® Aramid Fibers, Applications
Coated Fabrics, High Performance
High Performance Coated Fabrics of Kevlar® Aramid Fiber, p. 3
Kevlar® Aramid Fibers, Fabric, Properties and Economics
High Performance Coated Fabrics of Kevlar® Aramid Fiber, p. 3
Latex Compounding Additives
Latex Compounding Additives and their Effects on Textile Application Properties, p. 191

Latex Particle Size, Determination of
Determination of Latex Particle Size from Polymerization Rates, p. 223

Loading Dock Enclosures
Specialized Applications for Coated Fabric, p. 24

Low Temperature Flexibility
Fire Resistance of Phosphazene Rubber Coated Fabrics, p. 233

Microrganisms
The Biological Stability of Polymers, p. 33

Mining
Specialized Applications for Coated Fabric, p. 24

N-Methylolacrylamide
Determination of Free Formaldehyde on Emulsion Treated Substrates, p. 159

Nonwovens
Use of Acrylic and PVC Latex in Nonwoven Applications, p. 97

OSHA
The Impact of OSHA Regulations on the Coated Fabric Industry, p. 319

Outerwear, Rain Protection
Treatment of Outerwear for Rain Protection, p. 218

PNF® Rubber
Fire Resistance of Phosphazene Rubber Coated Fabrics, p. 233

Pollution
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Poly(2,3-dibromopropyl acrylate)
Research Report from the Palmetto Section of AATCC, p. 169

Polyester/Cotton Blends, Flame Retarding
Research Report from the Palmetto Section of AATCC, p. 169
Non-Toxic Flame Retardant for Textiles, p. 308

Polyphosphazenes
Fire Resistance to Phosphazene Rubber Coated Fabrics, p. 233

Polyurethane
Application of Coatings to Continuous Webs, p. 43

Polyurethane Systems, 100% Solids
Marketing Analysis of 100% Solids Polyurethanes, p. 326

Polyvinyl Chloride
Application of Coatings to Continuous Webs, p. 43

Polyvinyl Chloride, Nonwoven
Use of Acrylic and PVC Latex in Nonwoven Applications, p. 97

Puncture Resistance of Coated Fabrics
High Performance Coated Fabrics of Kevlar® Aramid Fiber, p. 3

Radiation Curing
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

Regulations
The Impact of OSHA Regulations on the Coated Fabric Industry, p. 319

Resin Treated Nonwovens
Determination of Free Formaldehyde on Emulsion Treated Substrates, p. 159

Rheology
Evaluation of Sodium Polyacrylate Thickeners in Styrene-Butadiene Latices, p. 85

Rosin Amine D
The Effects of Selected Fungicides

on the Flammability, Strength and Water Repellency of Cotton Tentage Exposed to Light, p. 357

Sequesting Agents
Latex Compounding Additives and their Effects on Textile Application Properties, p. 191

Static Creasing of Coated Fabrics
High Performance Coated Fabrics of Kevlar® Aramid Fibers, p. 3

Tension
Strength of Coated Fabrics with Crack, p. 269

Tentage
The Effects of Selected Fungicides on the Flammability, Strength and Water Repellency of Cotton Tentage Exposed to Light, p. 357

Thermoplastic Polyurethanes, Cost Analysis
Thermoplastic Polyurethanes — A Versatile Material for Industrial Fabric Application, p. 293

Thermoplastic Polyurethanes, Industrial Applications
Thermoplastic Polyurethanes — A Versatile Material for Industrial Fabric Application, p. 293

Thickeners
Evaluation of Sodium Polyacrylate Thickeners in Styrene-Butadiene Latices, p. 85
Latex Compounding Additives and their Effects on Textile Application Properties, p. 191

Transfer Coating
Solventless Fabric Coating by Radiation Curing Part I: Background and Potential, p. 253

UV Light Degradation of Kevlar® Aramid
High Performance Coated Fabrics of Kevlar® Aramid Fiber, p. 3

Upholstery Fires
Relative Toxicity of Pyrolysis Products from Upholstery Fabrics With and Without Backcoating, p. 63
The Effect of Text Conditions on the Relative Toxicity of the Pyrolysis Products from Some Upholstery Fabrics, p. 133
Flash Fire Propensity of Some Upholstery Fabrics With and Without Backcoating, p. 240
Ignitability of Some Upholstery Fabrics With and Without Backcoating, p. 263

Urethane Coatings Industry
Marketing Analysis of 100% Solids Polyurethanes, p. 326

Urethane Latex Applications
Polyurethane Latices, p. 121

Urethane Latex Manufacturing
Polyurethane Latices, p. 121

Viscosity
Evaluation of Sodium Polyacrylate Thickeners in Styrene-Butadiene Latices, p. 85

Web Handling
Application of Coatings to Continuous Webs, p. 43

Yield Point
Evaluation of Sodium Polyacrylate Thickeners in Styrene-Butadiene Latices, p. 85
